A delegation attended the SAR Congress in
Connecticut July 13-18th at the Mohegan
Resort. Your Texas representatives, known
as the "Texas Girls" had a great time!

Please enjoy the pictures included here and make plans to attend SAR Congress in North Carolina next summer.

Lots of eating with our Texas group!

Installation Banquet

Now, for the silliness.....

First Ladies Tea

More fun!

Ladies Luncheon

We also learned how to make rope mats. These are very popular in Connecticut.

A recipe shared by the National Ladies Auxiliary was for Mounds chocolate bar

1 part sweetened condensed milk to 4 parts shredded coconut.

Melting chocolate to drizzle on top.

YUMMY!

Mix together and then place in tiny cup cake cups (drizzle chocolate) or roll up and roll in chocolate. Enjoy a homemade treat!

Message from your President

Summer is here in full blast and I mean heat! My hope is this newsletter finds you doing well and staying cool. Please make plans now to attend the Fall BOM in October. The Ladies Auxiliary has several events you don't want to miss!

Rowena

Revolution Era Invention

Thomas Jefferson modified a fairly basic Windsor chair to swivel in place in 1775, and subsequently used the chair to draft the Declaration of Independence. Something we take for granted in the office ended up being key for the final draft of one of the most important documents in American history.
